Development Cooperation fact sheet:
February 2020

Australia is contributing to greater prosperity and stability in Cambodia and the region by supporting access to public services and more balanced, inclusive economic growth.

Strategic direction

Australia is a longstanding and valued partner to Cambodia, and has a strong reputation for delivering effective aid. We work with a balanced mix of implementation partners to **reduce poverty** (SDG1) and address the constraints to **economic growth** (SDG8).

Our investments are prioritising:

- improving access to essential **infrastructure** (SDG9);
- increasing **agricultural** (SDG15) productivity and farmer incomes; and
- better **health and wellbeing** (SDG3).

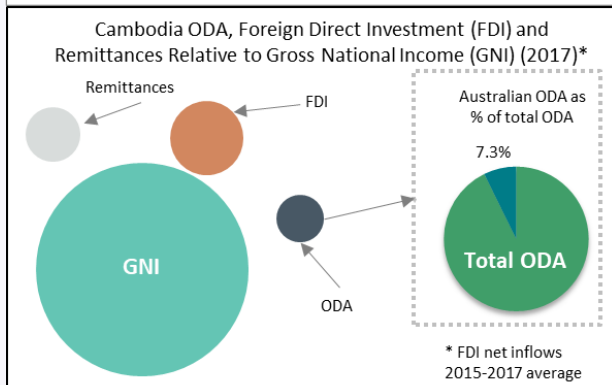

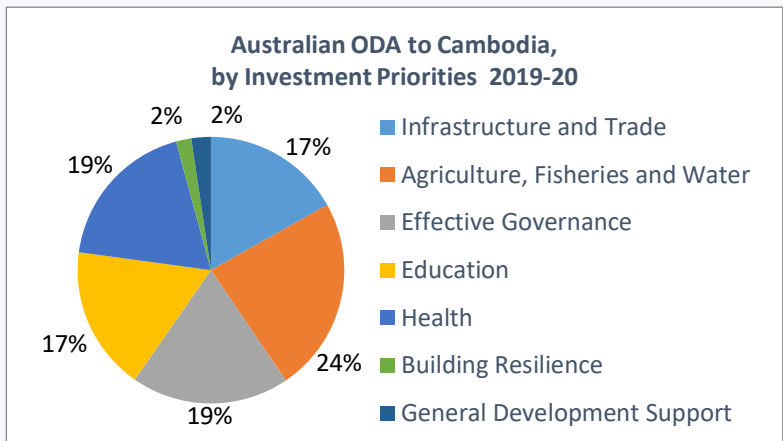

Program highlights

Since 2015, Australia has:

- Supported private investment into water and electricity **infrastructure** (SDG9); which is projected to provide more than 1.15 million people with reliable and affordable water or electricity connections.
- Improved service delivery and referral systems for **women affected by violence** (SDG 5 and SDG10), and provided direct funding for more than 12,000 affected women and their families to receive support services.
- Stimulated greater investment by the Government of Cambodia to protect the poorest three million Cambodians from significant **health** (SDG3) costs through the Health Equity Fund.
- Supported over 52,000 farming households to improve their **agricultural practices** (SDG15) and increase their income.
- Awarded 230 long-term scholarships to Cambodians through the Australia Awards Scholarships program.
